CAReer Trainee Digital Innovation Engineer in Sindelfingen

CAReer – The Top Talent Program is the ideal start for a long-term career with Daimler. Being an entry-level professional training program, CAReer is targeted at university graduates or early professionals who want to get to know the company inside out and take on management and project responsibility early on. With this particular CAReer position, you will launch your future career in the department “Quality Engineering Center”.

Thinking globally. Quality engineering globally. The innovations of tomorrow require the ideas of today. Contribute to the quality of the future. Ensure excellent quality in combination with future trends for the next generation of cars. You will design and optimize series development projects in terms of quality and new digital solutions, and generate innovative new quality processes. While taking account of the latest trends in technology and life in a fully digital world, new ways of thinking are required for future mobility.

Your responsibilities include:
• Generating new digital ideas for an advanced quality process.
• Taking care of customer quality needs for new digital products according to future vehicle development cycles.
• Screening technology on a daily basis, maintaining a broad overview of market trends and analyzing innovations for suitable applications to digital services.
• Leading project teams on different data analysis assignments to find new fields for future quality actions.

We expect from you
• An excellent university degree in Business & economics, Social sciences, Vehicle technology, Electrical engineering, Information technology, Mathematics, Mechanical engineering, Industrial engineering, Energy technology (ideally as a Master degree)
• First professional work experience (18 months are obligatory with a Bachelor’s degree)
• Several months of solid experience abroad
• Excellent English language skills along with very good knowledge of German
• You convince us with your personality and enjoy the management responsibility
