

Doctoral Workshop on Quantitative Dynamic Economics

September 15-16, 2017
Universidad Carlos III de Madrid

Organizers

Frédéric Dufourt (GREQAM – Aix-Marseille School of Economics)
Rodolphe Dos Santos Ferreira (Université de Strasbourg)
Antonia Díaz (Universidad Carlos III de Madrid)
Matthias Kredler (Universidad Carlos III de Madrid)
Leo Kaas (University of Konstanz)
Patrick Pintus (Aix-Marseille University and Banque de France)
Almuth Scholl (University of Konstanz)

Call for Papers

We are pleased to invite submissions for the third Doctoral Workshop on Quantitative Dynamic Economics which takes place in Madrid, September 15/16, 2017. The aim of the workshop is to offer a stimulating environment where PhD students and young researchers can exchange ideas about their work with experienced researchers. We are particularly interested in submissions by doctoral students entering the academic job market in 2017/18. We welcome contributions from all areas of dynamic economics. Topics of interest include in particular

- Dynamic stochastic general equilibrium models
- Labor market dynamics
- Financial markets and macroeconomics

Please submit papers in pdf format to Susanne Reichmann (office.kaas@uni-konstanz.de). The submission deadline is June 1, 2017. Authors will be notified about acceptance by June 15, 2017. Local expenditures (meals and accomodation) for all participants will be funded.
