Job Vacancy

Research Assistant(s)

Our team conducts research in applied economics on such topics as the future of work, labor markets, gender inequality, and education economics.

Responsibilities:
- Work with data, including writing code in Stata, R, and Matlab
- Support the creation of presentations and papers in Latex
- Support the dissemination of research through website

Requirements:
- Motivation to contribute to empirical, academic research
- Motivation to learn mastering Stata, Matlab, Latex
- Desire to pursue a Master or PhD in economics or other field is a plus

Positions start in June 2024 or later.

Applications from both Bachelor and Master students are highly welcome.

Prior knowledge in computer coding not required

Working hours (between 15 and 40 hours a month) are flexible.

Please send your application until March 18, incl. CV, as well as an overview of your study performance via email to: Madeleine Hafner, office.findeisen@uni-konstanz.de

signed Prof. Dr. Sebastian Findeisen (Chair of Economic Policy)
