Company description :
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

Job description :
WHAT WE OFFER
Our company culture is focused on helping our employees enable innovation by building breakthroughs together. How? We focus every day on building the foundation for tomorrow and creating a workplace that embraces differences, values flexibility, and is aligned to our purpose-driven and future-focused work. We offer a highly collaborative, caring team environment with a strong focus on learning and development, recognition for your individual contributions, and a variety of benefit options for you to choose from. Apply now!

SUMMARY
We are looking for a proficient and cross-stack minded (Junior) Developer (f/m/d) to drive HANA Cloud features end-to-end. SAP HANA Cloud is an enterprise-scale, cutting-edge database platform offered as a managed cloud service. Utilizing state-of-the-art cloud technologies - like Kubernetes, AWS S3, Prometheus - we bring the power and performance of SAP HANA to the cloud. Are you enthusiastic about Kubernetes, cloud native architectures and cloud infrastructures? Are you interested in working with a Linux-based development environment and collaborating closely in an agile team to produce high quality code? Then come join us!

THE ROLE
In this role in our SAP HANA Cloud Innovations organization, you are part of the team that literally makes HANA work in the cloud.
Together with your teammates, you are responsible for identifying and defining how HANA database services are best run in docker containers, Kubernetes, and on cloud infrastructures.
You contribute to the creation and evaluation of new cross-stack concepts, considering various aspects, from the client protocol and network infrastructure down to the database persistence, and ensure their successful realization in close cooperation with many other teams.
In addition, you take responsibility for multiple microservices, which includes the definition of the design, quality-driven implementation in modern programming languages, and supporting the continuous deployment and operation of these services by applying DevOps principles.
Driven by your eagerness for knowledge and to experiment you grow inside our team and build a solid foundation to continuously deliver innovative solutions in a rapidly evolving environment.

ROLE REQUIREMENTS
Very good degree in Computer Science, Mathematics or Physics
Outstanding pragmatic creativity
Very good programming skills in Go, C++, and Python (Rust is a plus)

Enthusiasm for cloud technologies and cloud-native development

Excellent communication skills in English and German, written and spoken

ABOUT THE TEAM
The SAP HANA Cloud Innovation team creates ways and means to bring together Cloud Infrastructure and Cloud Native capabilities with the SAP HANA database engine, SAP’s ground-breaking in-memory, multi-core database platform, which provides a powerful foundation for SAP products in the cloud and on premise. Being part of the SAP HANA team means constantly driving innovation and working on complex technical challenges every day.

Success is what you make it. At SAP, we help you make it your own. A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now!

WE ARE SAP
SAP innovations help more than 400,000 customers worldwide work together more efficiently and use business insight more effectively. Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end business application software and related services for database, analytics, intelligent technologies, and experience management. As a cloud company with 200 million users and more than 100,000 employees worldwide, we are purpose-driven and future-focused, with a highly collaborative team ethic and commitment to personal development. Whether connecting global industries, people, or platforms, we help ensure every challenge gets the solution it deserves. At SAP, we build breakthroughs, together.

OUR INCLUSION PROMISE
SAP’s culture of inclusion, focus on health and well-being, and flexible working models help ensure that everyone – regardless of background – feels included and can run at their best. At SAP, we believe we are made stronger by the unique capabilities and qualities that each person brings to our company, and we invest in our employees to inspire confidence and help everyone realize their full potential. We ultimately believe in unleashing all talent and creating a better and more equitable world.

SAP is proud to be an equal opportunity workplace and is an affirmative action employer. We are committed to the values of Equal Employment Opportunity and provide accessibility accommodations to applicants with physical and/or mental disabilities. If you are interested in applying for employment with SAP and are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team:
