Company description:  
COMPANY DESCRIPTION  
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.  
SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.  

Job description:  
Requisition ID: 221239  
Work Area: Corporate Operations  
Location: St. Leon-Rot  
Expected Travel: 0 - 10%  
Career Status: Student  
Employment Type: Limited Part Time  

PURPOSE AND OBJECTIVES  
For cloud solutions, the requirement to ensuring customer success is key. Customers expect ongoing guidance for adopting new configuration and usage of all their cloud solutions considering the constant stream of innovation potential coming from SAP in quarterly releases.  
To serve our customers effectively and efficiently we are aiming to increase delivery capabilities by intelligent tools. These tools are using all of SAP’s innovation, such as Machine Learning and are built on SAP Cloud Platform or SAP’s internal Infrastructure.  
You will be working in an international team with contacts to the delivery units of the Customer Success Group and many other SAP units, such as P&I, GCO, GBO, ID&A and SAP Global IT.  

EXPECTATIONS AND TASKS  
You’ll work with Cloud experts on real go-live projects for SAP’s cloud customers as well as internal tools for the different Line of Business (Enterprise Support, Max Attention, Preferred Success). You can learn first-hand how SAP executes on IT implementations in our internal infrastructure and platform.  
Our team is focusing on the business requirements and their translation into IT specifications for further implementation. You will get a good knowledge and understanding of both worlds - the business process and the IT language that we need to speak to serve both needs.  
During your assignment you’ll support our team in presentation preparation, supporting internal communication and get & develop technical solutions insights and their support.  
You will gain project management skills, development insights and how to work in SAP cloud solutions environments and tools.  

WHAT YOU GET FROM US  
Success is what you make it. At SAP, we help you make it your own.  
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.  

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company. SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).

Successful candidates might be required to undergo a background verification with an external vendor.
