6-month internship: Middle Office - Private Equity - Renewable Energy Infrastructure Investment Fund.

The company: RGREEN INVEST is a French management company founded in 2013 that works for the energy and environmental transition.

The team invests in debt and equity in infrastructure projects related to the energy transition in Europe and currently manages more than €600 million. The clients are major institutional investors (pension funds, insurers, family offices, etc.).

Description of the internship offer:

- Start of the internship: September 2019
- Location: Champs-Elysées, 75008

As part of the ramp-up of the activity and the raising of new funds, you will work as part of the business development team. You will be in a reactive and very entrepreneurial environment.

You will be involved in development, marketing, monitoring and investor relations topics. In particular, you will be in charge of assisting the team in the following functions:

- Monitoring of portfolio assets (financial, administrative and middle-office monitoring);
- Financial reporting and review of management comments;
- Creation of asset management indicators;
- Participation in the preparation of marketing documents and contribution to supporting business development;
- KYC.

The profile we are looking for

With a higher education diploma (Bac+4/5), you wish to complete your internship or break in a private equity company specialising in energy transition.

You have the following skills in particular:

- Good writing, analysis and synthesis skills;
- Be proactive and organized;
- Desired experience in finance / consulting / audit;
- Knowledge of financial analysis, project financing and financial modelling (excellent practice in computer tools (Excel, VBA, Powerpoint);
- Excellent communication skills in French and English;

The intern will be considered as a full contributor and will work in complete immersion within the development team, a strong motivation and team spirit will be essential for the successful integration and participation in all proposed missions.

If, like RGREEN INVEST, you are convinced that the challenges of the energy transition must be placed at the heart of strategic investment policies and you want to develop your knowledge in finance, strategic and commercial development and renewable energies, please send your CV and a cover letter to:
