

SUSI Partners AG is a Swiss investment firm, focusing on renewable energy, energy efficiency and energy storage.

We currently offer an internship in our office in **Zurich** within the investment team of our energy efficiency fund.

This is a unique opportunity for highly motivated candidates who are interested in the financing of sustainable energy infrastructure.

Internship Energy Efficiency Fund

Your Responsibilities:

- Work directly with investment professionals during the origination, analysis, structuring and execution of complex energy efficiency transactions
- Support in establishing and developing new business relationships
- Assist in the identification and assessment of new financing opportunities within the field of energy efficiency
- Support the team in the due diligence process, the preparation of financial models and drafting of transaction documents
- Prepare presentations and marketing material

Our requirements:

- Currently enrolled in a Master's Degree in Business / Finance / Engineering / or equivalent
- Able to perform detailed financial analysis and to understand financing and tender documents
- Excellent communication skills in German and English; any other European language is an advantage
- Advanced knowledge of Microsoft Excel and PowerPoint
- Good quantitative skills, interest in working with numbers and proven analytical skills
- Interest in the green economy and infrastructure investments
- Prior work experience in banking, corporate finance, M&A, private equity or consulting

We offer the opportunity to be part of a dynamic and international team in **Zurich** and the chance to quickly take on responsibilities. Minimum length of an internship is four to six months. This position will start on 1st October 2018. Please submit a cover letter and curriculum vitae with photo [here](#) to the attention of Tijana Pavlovic.
